THIS IS UNEVALUATED INFORMATION

The Office of Naval Intelligence furnished the following information to CIA for IAC dissemination in accordance with paragraph 3c of NSCID #7. This information was obtained by DIO-3ND and was forwarded as ONI report 53-C-53.7

1. Entry, Cargo, Security Measures: [redacted] arrived at the port of Gdynia, Poland [redacted] and docked alongside the Polish Quay adjacent to the Cukroportu Shed. [redacted] ship carried three hundred tons of mail into the port, and 22 tons of mail out. [redacted] The usual security measures were carried out upon entering and departing; 50-60 men, more than the normal number, were used each time.
2. New Buoy: A new buoy has been in place since early January, 1953, 2½ miles off the Hel Peninsula, bearing 1750 T from the tip of the peninsula. Ships are not allowed to pass on the Hel Peninsula side of the buoy. However, numerous fishing vessels were sighted on the inland side.
3. Merchant Ships: The only ship seen in port [redacted] was a small Russian freighter seen alongside Indian Quay [redacted] It was estimated that this vessel was 350 feet long and about 4000 gross tons. An agent of Moraska Agencja, during a casual conversation, inadvertently made it known that this ship was loading rubber. No further details concerning this cargo were obtainable.
4. Naval Vessels: seven to nine destroyer-type vessels were observed in Basin No 10. No other identifying information was obtained. No submarines were seen.
